

5. Verify the installed versions of all AI libraries on your system.

Code:

```
import numpy as np

import pandas as pd

import matplotlib

import sklearn

print("Installed Library Versions")

print("-----")

print("NumPy      :", np.__version__)

print("Pandas     :", pd.__version__)

print("Matplotlib  :", matplotlib.__version__)

print("Scikit-learn :", sklearn.__version__)
```

OUTPUT

The image shows a screenshot of a Python IDE with two windows. The background window is a code editor titled 'graph.py - C:/Users/Dhanyashree/graph.py (3.10.11)'. It contains the same code as the 'Code' block. The foreground window is a terminal titled 'IDLE Shell 3.10.11'. It shows the output of the code: 'Installed Library Versions', a separator line, and the versions of NumPy (2.2.6), Pandas (2.3.3), Matplotlib (3.10.9), and Scikit-learn (1.7.2).

```
graph.py - C:/Users/Dhanyashree/graph.py (3.10.11)
