

2.Install Scikit-learn and print its version.

Code:

```
import sklearn
```

```
print("Scikit-learn Version:", sklearn.__version__)
```

OUTPUT

The screenshot displays a Python IDE window titled 'graph.py - C:/Users/Dhanyashree/graph.py (3.10.11)'. The code editor contains the following Python code:

```
import sklearn  
print("Scikit-learn Version:", sklearn.__version__)
```

Below the code editor, an 'IDLE Shell 3.10.11' window is open, showing the execution output. The shell displays the Python version and architecture, followed by a restart message and the output of the print statement:

```
Python 3.10.11 (tags/v3.10.11:7d4cc5a, Apr 5 2023, 00:38:17) [MSC v.1929 64 bit  
(AMD64)] on win32  
Type "help", "copyright", "credits" or "license()" for more information.  
>>>  
===== RESTART: C:/Users/Dhanyashree/graph.py =====  
Scikit-learn Version: 1.7.2  
>>>
```

The status bar at the bottom of the IDE shows 'Ln: 3 Col: 51'.
